Individual Names

- Individual names branded onto each product
- Available on most products that can be engraved, sublimated and full colour printed
- No delay to the normal artwork and branding time
- Easy to use
- Very affordable

Branding Options:

Pad Printing

Ideal for high volume prints.

Allows for up to a four colour print.

This process is used on small items such as pens, calculators, keyrings, timers, watch dials etc.

Silkscreen Printing

Very effective in producing large and bold logos.

Allows for up to six colour print.

This process is used on products such as bags, folders, umbrellas, coolers, notebooks etc.

Laser Engraving

A logo is burned into the product with a laser, with an upmarket look.

This process is used on products such as metal pens, flasks, tools, trophies, coasters etc.

This branding method also allows for individual names (Pipex Branding).

Vinyl Stickers

Full colour stickers are printed.

This process is ideal for products where other branding methods are not available, especially for a full colour logo, such as gift bags, hampers, earphones etc.

Dome Stickers

Full colour stickers are printed and coated to give a 3 dimensional look.

This process is ideal for products where provisions have been made to hold a dome sticker, such as picnic bags, braai sets, bag hangers etc.

Foiling

A thin foil is pressed into a product to create a silver or gold colour.

This process works best on PU and Koskin material such as diaries, notebooks etc.

Debossing

A logo is heat stamped into the product, with a classy, subtle effect.

This process works best on PU and Koskin material such as diaries, notebooks, folders etc.

Individual Names (Pspec Branding)

Individual names are branded onto each product.
This process is available on most products that can be engraved, sublimated and full colour printed, such as: sublimation mugs, diaries, notebooks etc.
No delay to the normal artwork and branding time.
This process is easy to use and very affordable.

Full Colour Direct to Product Printing

8 ink cartridges allow for full colour printing on white and coloured products, as well as heat-sensitive materials.
This process is used on plastic and metal items.
This branding method also allows for Individual Names (Pspec Branding).

Full Colour Sublimation Printing

Using sublimation inks, full colour logos are applied to a product.
This works on man-made fabrics such as polyester and white ceramic.
This process is used on products such as: white umbrellas, white polyester bags, white mousepad, sublimation mugs etc.
This branding method also allows for Individual Names (Pspec Branding).

Full Colour Heat Transfer

A full colour logo is transferred onto a product using a heat press.
Ideal for products too intricate for Silkscreen Printing.
This process works on polyester, nylon, cotton and 600D materials, such as: bags, camping chairs, umbrellas, cushions etc.

Name & Lapel Badges

A dome badge with a magnet or pin clip attachment.
Any shape and colours available.

Button Badges

3 Sizes available: 37mm, 58mm and 75mm.
High volumes can be produced.
Individual Names can also be added.

Custom Zip Pullers

Double sided dome sticker with a ring attached.
Any shape and colours available.
